Problem & Solution

Our city have some problems

- There is no enough information to the people
- People can get information by searching online, but it is not easy to find all at one place and well organized
- Important number and info such as hospital , transport, Shop are not available and updated
- In Outside Dhaka city there is no available intercity courier service.
- There in no call center to help people by giveing info of different kind of institute.

We have some solutions

- People will get information more easily and organize way.
- Digital Pabna will be enough to contain all information about the city.
- We will provide a online business directory
- We will start inercity courier service to help people buy product from any shop in city.
- People can call our call center to get any kind of information about any city.in Bangladesh.
